Fleet interior protection

Custom interior protection

Does your vehicle fleet need a custom fitout solution?

Our experienced fitout team can create a custom foot-well, cargo area and tray liner solution. Select from a wide variety of carpet and heavy duty rubber materials. Whatever the application, we have the solution.

Custom product bundles

Create a value for money product solution for the ultimate interior protection. Combine any variation of products into a bundle and save. Select from one of our bundles, or tailor your own to meet your needs.

Customised safety and travel packs

Does your fleet have unique product needs? RubberTree has the ability to source 1000's of products from both local and international suppliers.

Our service guarantee

Delivery of goods and product installation at the dealership prior to delivery date.

- Dedicated Customer Service Team providing up to date communications during all key milestone phases, from order creation to delivery.
- Dedicated Account Manager who will help bring your product initiative to life.
